

# Rho Subtraction

Jason Phelan

# Cut List

- Cut List

- $W > 2.5$
- $y < 0.75$
- $p_e > 3$  and  $1.25 < p_\pi < 5$
- $5 < \theta_e < 35$  and  $5 < \theta_\pi < 35$
- $1.7 < M_x < 5$

Note:

“All” refers to all pions passing cuts

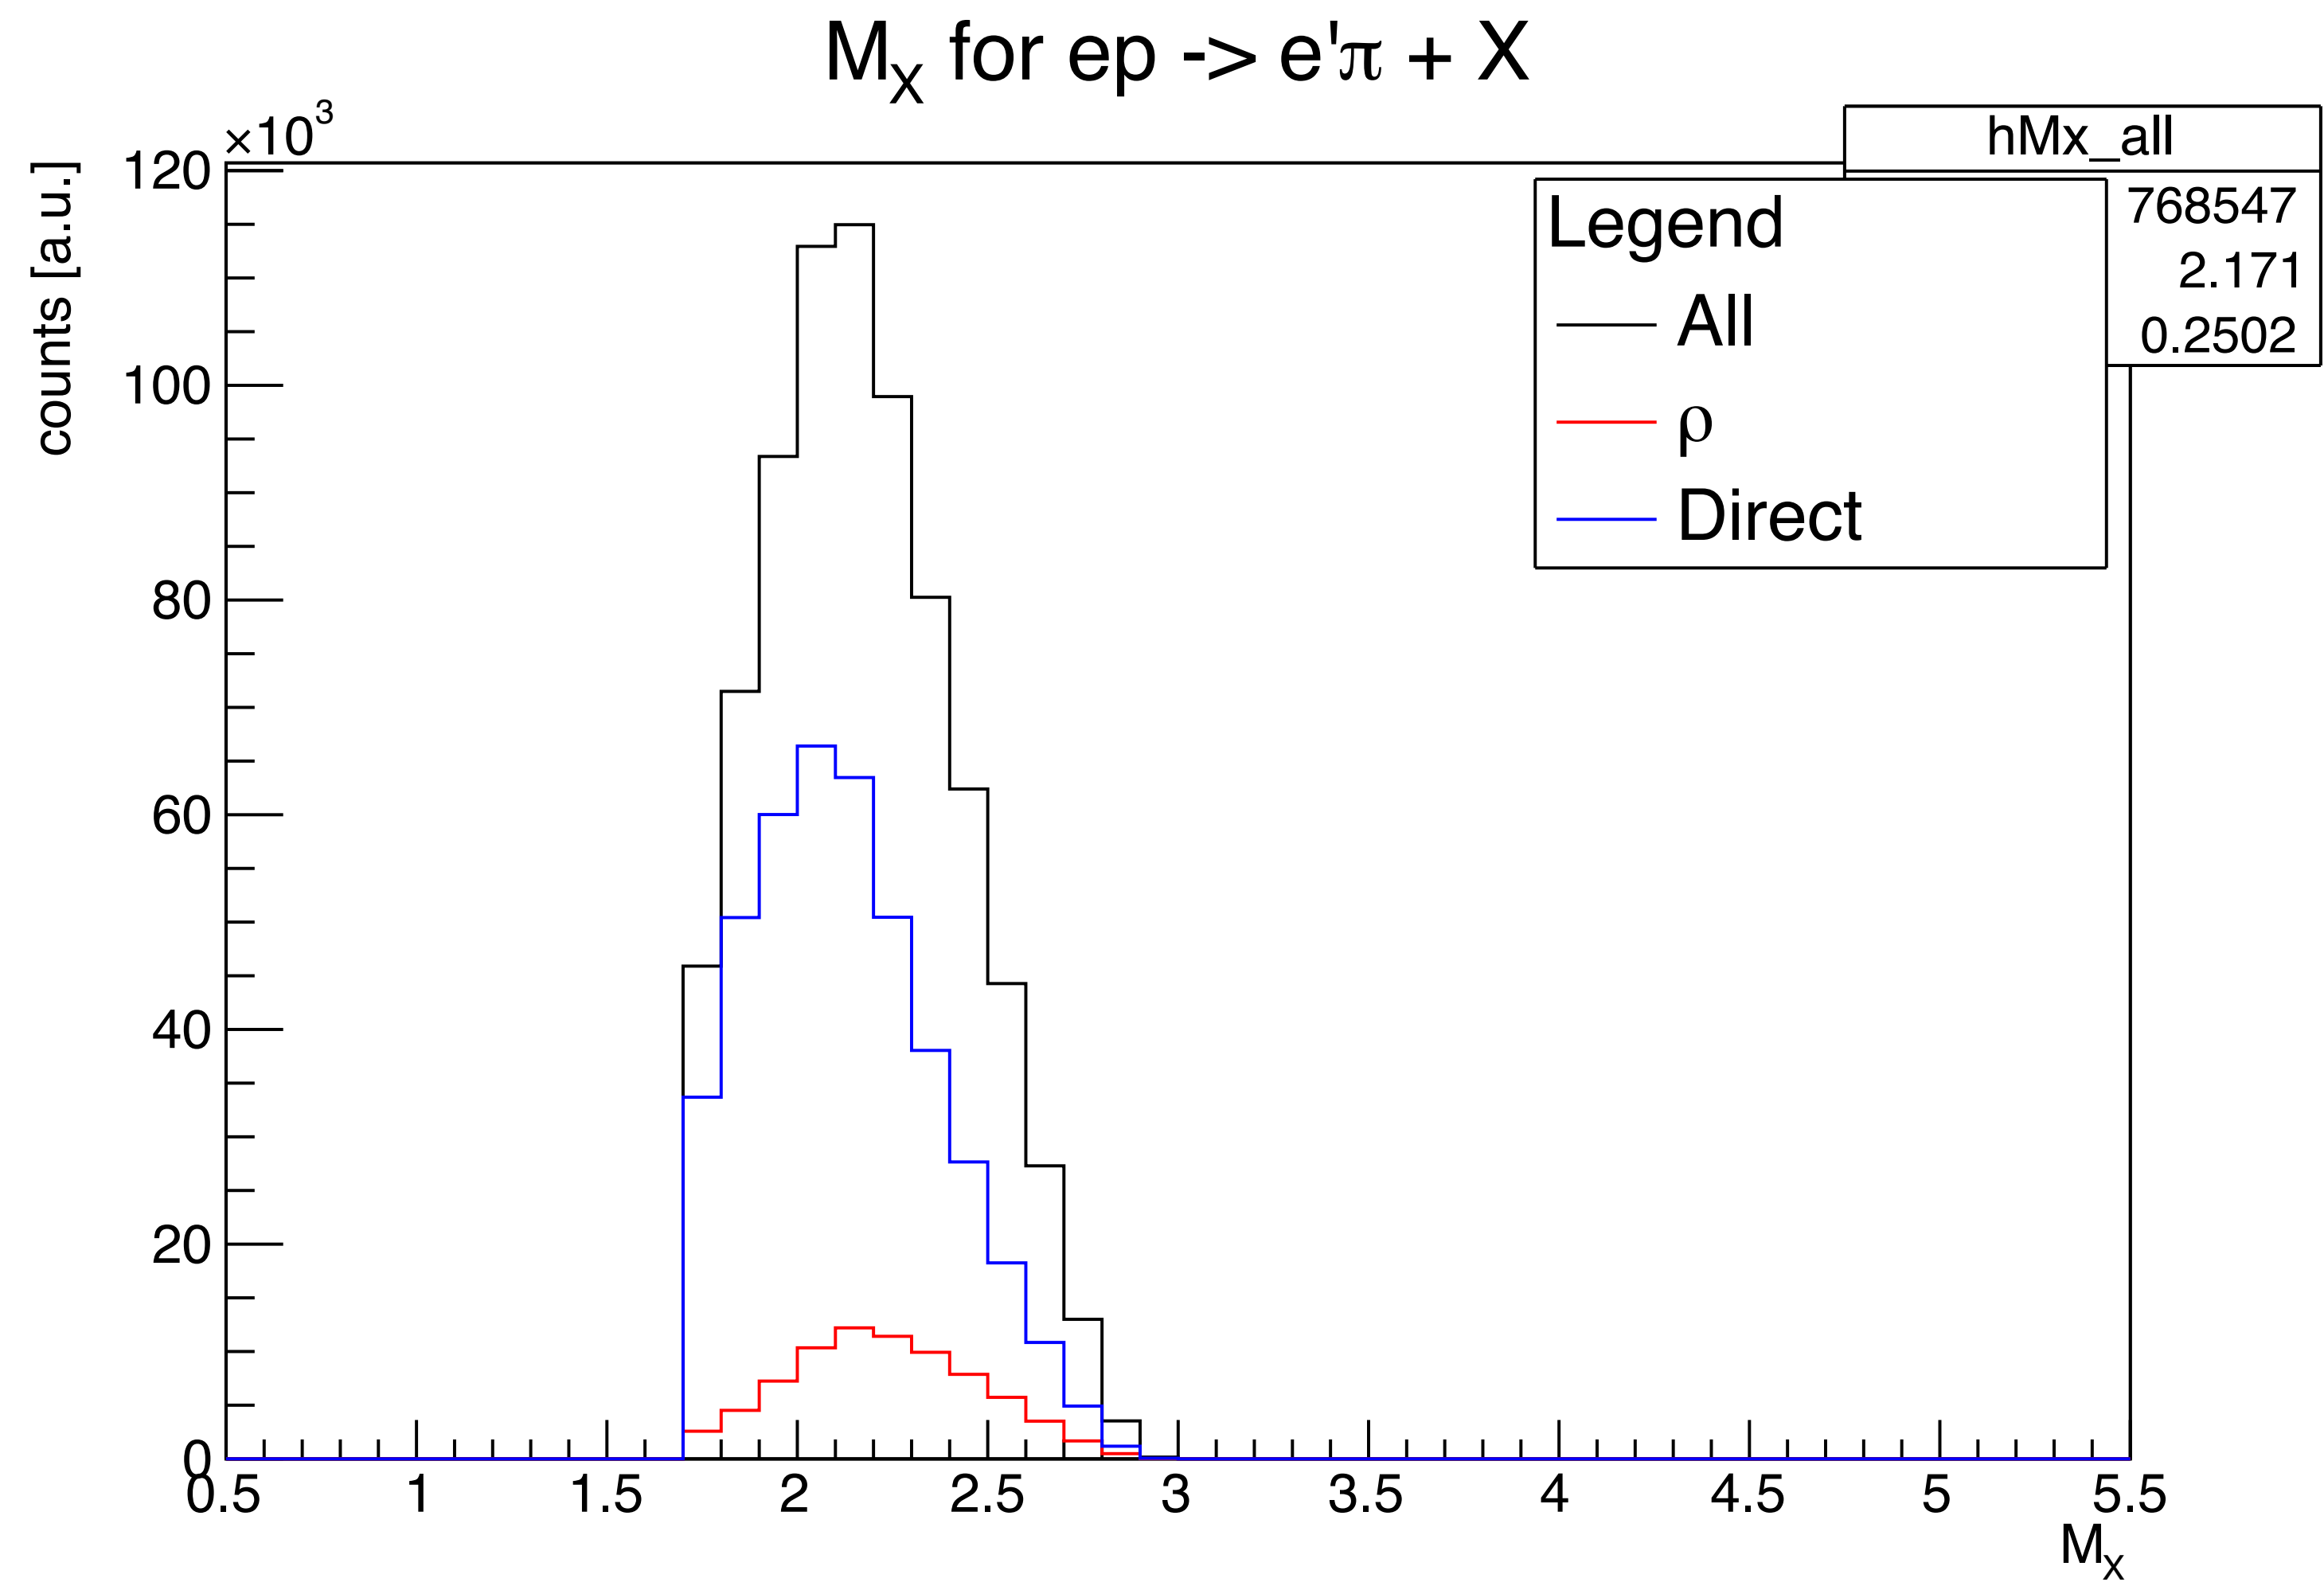

“ $\rho$ ” refers to all pions passing cuts with a parent PID of 113

“Direct” refers to all pions passing cuts with a parent PID of 91 or 92 (u or d quark)
